Concurrent Enrollment Guidelines

- **Eligibility**:
  - Typically, high school juniors and seniors are eligible for concurrent enrollment.
  - Students must meet specific academic criteria, such as a minimum GPA or standardized test scores, which vary by institution.

- **Application Process**:
  - Students must complete an application for the concurrent enrollment program, which may include submitting transcripts, test scores, and letters of recommendation.
  - Some programs may require an interview or additional documentation.

- **Course Selection**:
  - Students can choose from various college courses that align with their high school curriculum and future academic goals.
  - Courses may be taught by college professors or college-approved high school teachers.

- **Parental and School Approval**:
  - Students must obtain approval from their high school counselor or principal and their parents or guardians.
  - Some programs may require a signed agreement outlining the responsibilities and expectations of the student.

- **Tuition and Fees**:
  - Concurrent enrollment programs are often funded by the public school system, so there may be little to no cost for the student. Submit FAFSA, use school code 009763.
  - However, students may need to purchase textbooks and other required materials.

- **Academic Performance**:
  - Students must maintain a certain academic standard to remain in the concurrent enrollment program.
  - Poor performance in college courses can affect both high school and college transcript.

Students From Accredited High Schools Scores needed for Concurrent Enrollment.

Research Universities	**Regional Universities**	**Community College**
ACT -Minimum Score- 24	**ACT**- Minimum Score-20	**ACT**- Minimum Score-19
SAT-Minimum Score-1160	**SAT**-Minimum Score-1030	**SAT**- Minimum Score-990
GPA -3.0 (unweighted) and top 33.3% of the class	**GPA**-3.0 (unweighted) and top 50% of the class	**GPA**-3.0 (unweighted)
